

MONTHLY SPEAKER

FIRST PRESBYTERIAN CHURCH, 1510 FIFTH AVENUE (CORNER OF E STREET), SAN RAFAEL

MIND-CELL COMMUNICATION: NON LOCAL MENTAL INTERACTIONS WITH STEM CELLS

GARRET YOUNT, PHD, SCIENTIST, INSTITUTE OF NOETIC SCIENCES (IONS)

WEDNESDAY, APRIL 13TH, 7-9PM
SPEAKER BEGINS AT 7:15 (COME EARLY TO MIX AND MINGLE & BRING A SNACK TO SHARE IF YOU LIKE.)

IT IS KNOWN THAT THE MIND CAN SIGNIFICANTLY INFLUENCE ONE'S OWN HEALTH AND HEALING. HUNDREDS OF STUDIES WITHIN THE DISCIPLINE OF PSYCHONEUROIMMUNOLOGY HAVE FOUND THAT EMOTIONS SUCH AS FEAR AND LOVE DIRECTLY AFFECT OUR STRESS HORMONES, IMMUNE FUNCTION, OXYTOCIN LEVELS, ETC. PRECISELY HOW THIS CONNECTION WORKS IS NOT WELL UNDERSTOOD. IS IT POSSIBLE THAT OUR MIND DIRECTLY INTERACTS WITH OUR CELLS THROUGH A "NONLOCAL" CONNECTION? SCIENTISTS AT IONS ARE DESIGNING AN EXPERIMENT USING STEM CELLS TO TEST THIS POSSIBILITY. DR. YOUNT WILL PRESENT THE BACKGROUND AND RATIONALE FOR THE PROJECT AND DESCRIBE THEIR PROGRESS SO FAR.

GARRET YOUNT, PHD is a Scientist at Institute of Noetic Sciences and Director of the Mind-Body Medicine Research Group at California Pacific Medical Center Research Institute. Dr. Yount's expertise is in molecular neurobiology and his primary interest is bridging human genomics with aspects of consciousness and the nonmaterial mind.

He began his formal studies in consciousness research with a small grant from the Institute of Noetic Sciences in 1995, which allowed him to work with biofield practitioners and spiritual healers in the laboratory. Since then, he has established a track record in obtaining research funding from both federal and private agencies, including the National Institutes of Health (NIH) and the Department of Defense, and has had the opportunity to work with healers from the United States, Canada, China, Japan, India, Russia, Hungary, Brazil, and Sri Lanka.
