Not Modern, Not Western

Two Questions

1. Where does this come from?

- Not answerable with current methods
- The question that stops the conversation

2. What is being said?

- Answerable, and nobody had done it
- Is the content structured, or not?

Current Study

Prospective Structured Interviews

- 3 experienced trance channelers
- 30 standardized sessions, structured Zoom interviews
- 28-question protocol across 7 conceptual domains
- IRB-approved (IONS IORG#0003743); recorded, transcribed, de-identified, manually verified
- 10 named ETI groups, chosen in advance:
 - Pleiadians, Arcturians, Sirians, Andromedans, Antareans,
 - Lyrans, Orions, Anunnaki, Draco, Grays

Seven Topical Domains

Anthropological

Biology and life cycle

Society and communication

Cross-ETI

One Dataset, Two Lenses

Semantic Correspondence & Qualitative

- **Analysis 1**, Semantic correspondence (transformer embeddings)
 - High convergence across channelers on the same ETI; differentiation across different ETIs.
- **Analysis 2**, Qualitative structure & meaning (reflexive thematic analysis)

Does the measured convergence reflect interpretable structure, shared themes, narratives, and metaphors, or just surface similarity?

Five Thematic Convergences

Across Otherwise Different ETIs

1. Consciousness is ontologically primary
2. Time is non-linear - cyclical, layered, simultaneous
3. Energy is abundant - limits are ethical, not technical
4. Telepathy is the foundational mode of communication
5. Humanity is developmentally transitional within a broader interspecies ecology

Why I Wanted to Talk About This

TAKE A BREATH

A person is sitting on a dark rock in the foreground, looking out at a vast night sky filled with stars and the Milky Way. The person is silhouetted against a bright, glowing horizon. The sky is a deep black with a dense field of stars and a prominent band of light from the Milky Way galaxy stretching across the upper half of the frame. A solid cyan rectangle is located in the top-left corner of the image.

CONSCIOUSNESS FIRST

We Are All One

And the Law That Follows From It

“You harm no one. You treat all as yourself.”

Asked whether they have rules or laws, one group's entire answer:

“Yes, no harm to anyone. And cooperation, yes.”

30 of 30 sessions.

No external ruling deity in any of them.

TCET101, Sirians · TCET101, Andromedans

Consciousness and Matter

How Do People Get What They Need?

“We have all that we want when we want it. So there is no need to order. There is no need to take or give.

If we wish to have a house that we can enjoy living in... then we mentally support that and we can create it for ourselves.”

TCET101, Arcturians

Consciousness and Matter

Manifesting Their Needs

“Yes. Because that is part of what we wish to experience.”

“We are in a physical form, and we choose to experience physical manifestations with our abilities.”

TCET101, Arcturians

The Structure Underneath

Consciousness acts on matter

- Nobody lacks anything
- There is nothing to trade
- There is nothing to fight over

Everyone's Needs Are Met

“We do not have to pay to drink water, we do not have to pay for nourishment. That would be a sacrilege.”

“All needs are met, and we joyfully tend to each other so that everyone thrives.”

“What is needed for them is always given.”

TCET103, Pleiadians · TCET103, Sirians · TCET101, Andromedans

*No wages, No debt, No rent, No prices,
No poverty in 30 sessions*

So What Do They Do All Day?

Work, Joy & Purpose Are Not Separated

“We do not really separate work from our life purpose and from our joy.”

A great artist tours the galaxy with a new work;
solar systems await the presentation

An annual planet-wide festival where everyone
repaints the caverns

“We can also choose to walk because it's
delightful to walk... and to catch up with
friends.”

TCET103, Pleiadians · TCET103, Andromedans · TCET103, Antareans

Nobody Is Fighting Over Energy

Abundance as Background Condition

In 30 sessions: no energy market, no shortage,
no resource war

How are craft powered:

“Crystals. From the mountains.”

“Lack is just a figment of the
imagination. It is not an actual
state of being.”

TCET101, Antareans · TCET102, Lyrans

Could Earth Experience the Same?

The Limit Is Not Technical

“It exists. Your earth is rich. Your planet is rich with everything that is needed.”

“It is all at your fingertips.”

On who owns the land and minerals:

“It is not mine or yours. It is what you find.”

TCET101, Antareans · TCET103, Antareans

A person is sitting on a dark rock in the foreground, looking out at a vast night sky filled with stars and the Milky Way. The sky is a deep blue and black, with a bright orange glow on the horizon. A large, dark rock is in the foreground on the right. A solid cyan rectangle is in the top left corner.

LIVING TOGETHER

They Still Disagree.

Conflict Is Metabolized, Not Eliminated

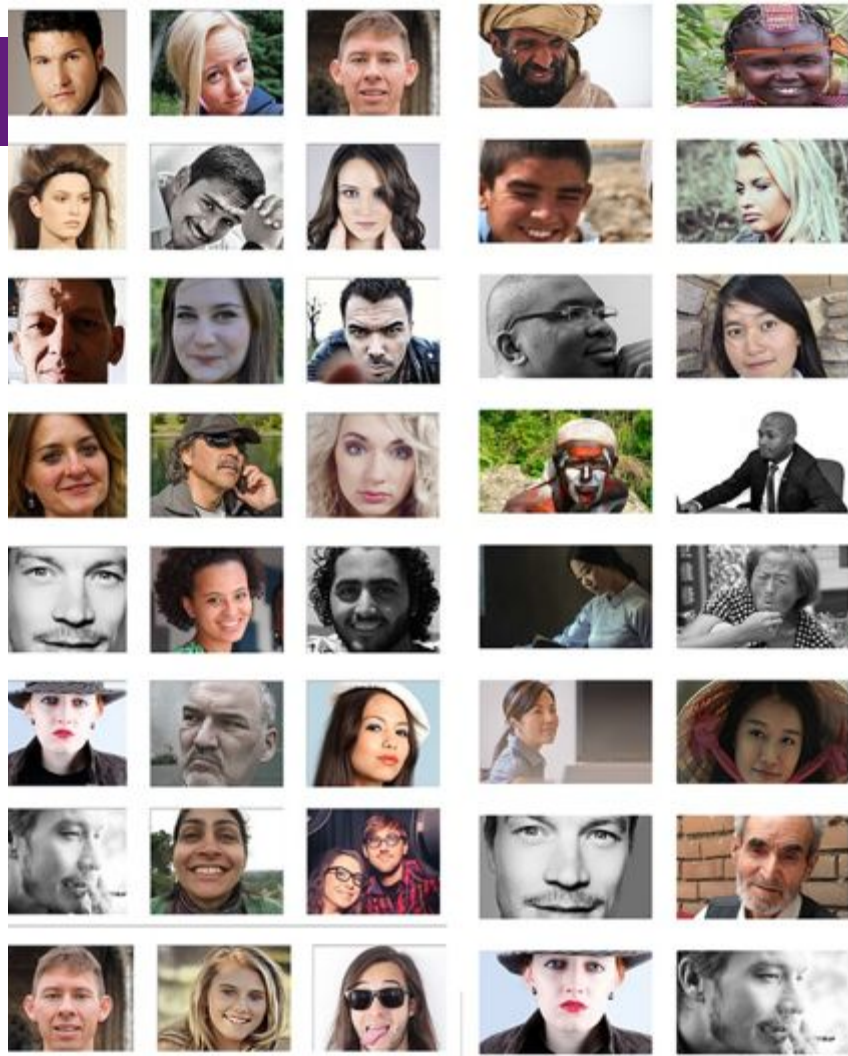

“We can disagree even between us on how to do things, but it is not a reason to become violent.”

“We are individual souls, we are not robots.”

Mediators and councils appear across
nearly every group

Harmony does not require sameness

TCET101, Sirians · TCET101, Pleadians

Oneness Is Not Sameness

Difference Preserved Between Species, and Between People

Asked which other groups they work with:

“When you look at a forest and there is 10 different types of trees, do you see each one as, no, you just see the forest.”

“We are not held back from personal expression and unique creativity, as long as it does not take away from another's.”

“We are proud of our diversity, and we protect it.”

TCET101, Andromedans · TCET103, Lyrans

Born Awake

And the Contrast With Us

“They are born very awake and aware.”

The mother transmits the culture telepathically,
before birth

And describing us:

“You're born into this field forgetting, and that
forgetting is encouraged throughout the
course of your life.”

Communal

“The children are at the center of many intersecting circles... everyone, in a sense, feels that they are in a circle of mentors.”

On their birthing technology:

“The incubator is not a machine. It is bio-energetic intelligence, more of a living pod or womb.”

TCET103, Arcturians

Schools

Education That Follows the Child

“We do not indoctrinate our children into one way of thinking. We naturally attune... their strengths to align with their own personal paths.”

“It is not required, but it is understood to support, not to force.”

In 30 sessions: no grades, no ranking, no testing, no compulsory attendance

“You relegate your conscious expansion to a finite number of years, and then stop learning.”

TCET102, Pleiadians · TCET101, Andromedans · TCET102, Arcturians

Age Is a Gain, Not a Decline

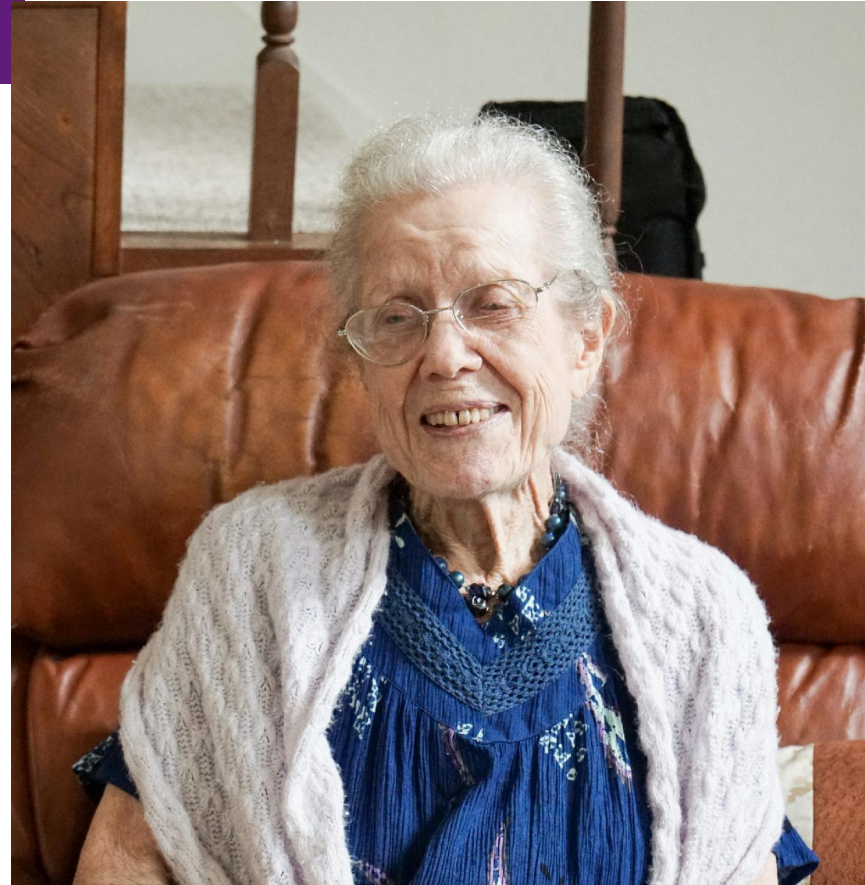

Long Lives, Chosen Endings

“In a way, we do not have old people.
You become an adult, and you are an
adult, until you are ready to leave.”

When an Arcturian transitions to the
androgynous elder form:

“It is celebrated planet-wide that we have
gained another wise elder.”

ALREADY HERE

Who Else Is Already Participating

Whales and dolphins sit on councils and report on Earth's energetic fields

Pleiadian children are brought here to learn from cetaceans

“The earth you are standing on is a biological sentient being... it feeds back to you all day every day.”

“Your sun is alive. It's a being... 24 hours access to this presence. So honor it and respect it.”

And the Damage is Not Permanent

Restoration Described as Ordinary Work

"Repairing, restoring, regenerating the earth and technologies is a gift to us. That is what brings us joy."

They describe clearing post-traumatic stress from humans, animals, and ecosystems alike

The Grays, on their own devastated planet:

"To you it looks more like a moon with very little life, yet we are bringing life back."

"The Earth needs help, as you know, because it has been not cared for as it should be...

It will recover. She will recover."

THE ROAD TO HARMONY

Almost Every Group Described Transforming

On How the Galactic Federation Came to Exist

"Many, many planets all around the universe were not peaceful like we are now. So there has been much wars, greed, many things that happened between galaxy and galaxy, and between planets and planets.

And so through time, through time, through time, and evolving and becoming much more aligned with the consciousness of the universe... many of us participated in creating collaboration... in order to create peace on all planets, and some took longer than others.

But what you are going through on Earth has happened on other planets for a million of times in the past. That's why we know that there is room to change.

And hundreds of years from now, you will be more like the rest that went through what you are going through and are much more at ease now."

Two Civilizational Profiles - Service vs. Hierarchy

Service-oriented / integrated

- Pleiadians, Arcturians, Sirians, Andromedans, Antareans, Lyrans
- Multi-density, oriented to service and learning, consciousness over biology

Stratified / hierarchical

- Orions, Anunnaki, Draco, Grays
- Caste or faction, technological overreach; disease and fragility framed as consequences of power asymmetry

Key point: The differences are about hierarchy, ethics, intervention, not ontology; hierarchies described as reforming, not fixed

A Faction That Broke Away From an Empire

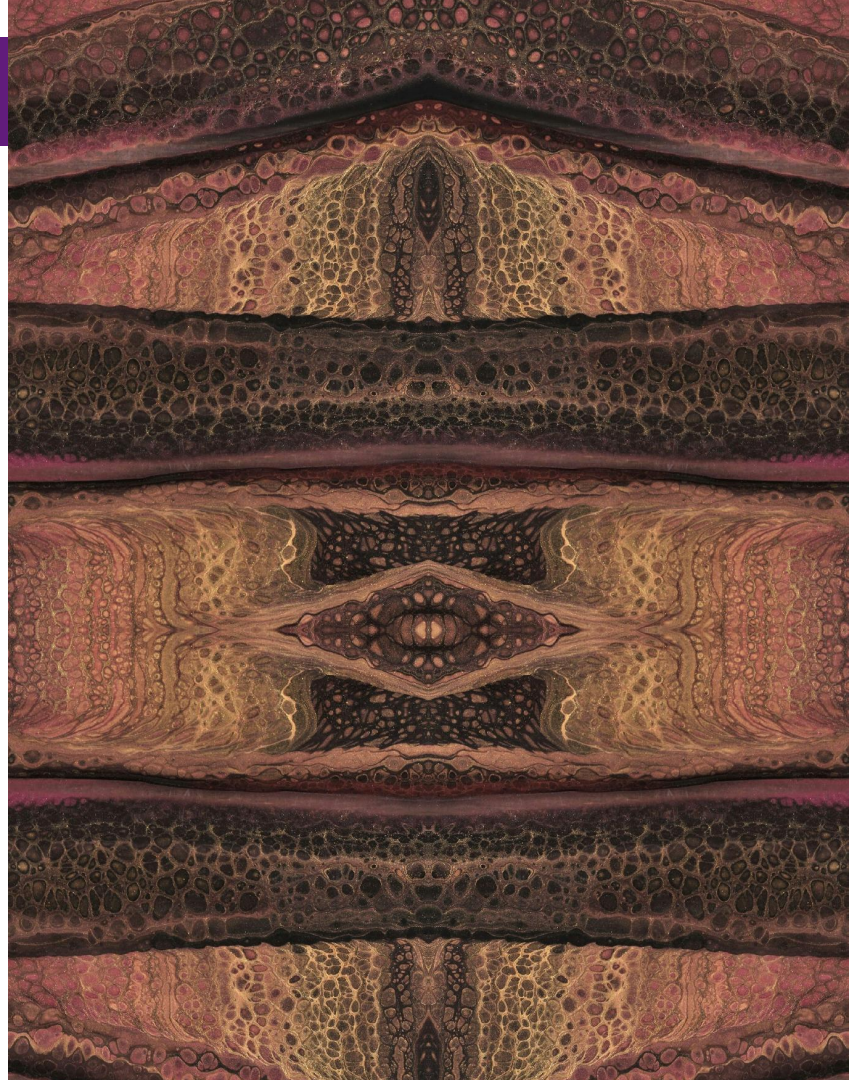

Accounts of Turning Around

“They erased our history... when the 10% fled, escaped the realm and removed our ear chip, we had extensive surgery and deprogramming.”

“We are developing a capacity for empathy now, and feeling what love is.”

“We are so used to forcing our will through our telepathy that we are having to learn how to shrink that part of our brains.”

TCET103, Draco

Compassion & Support

Nobody Is Written Off

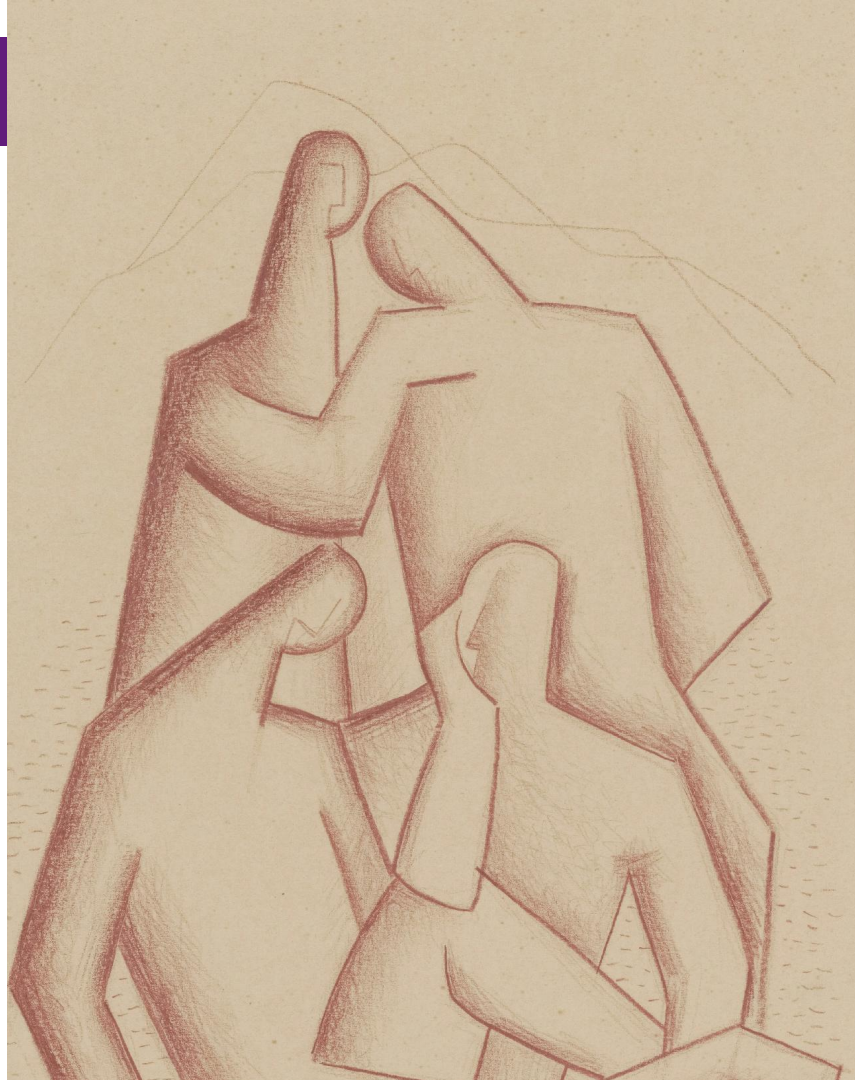

“We are being tended to very generously by the Arcturians. We are being taught and counseled by the Pleiadians.

This has been very transformative for us to receive generosity, for we have only ever encountered fear and hatred towards us.”

And from the other side, on the Grays:

“We disapprove of these tactics, yet we have compassion for them.”

TCET103, Draco · TCET103, Andromedans

And Then the Grays Apologized

Recovery, In Their Own Words

“We are coming into an emotion now that is like shame. We apologize for our blind interventions. We did not mean to harm you. We were desperate and thought only of ourselves.”

“We are recovering our individuality and our emotions, which is exhilarating.”

For a race that had only ever replicated adults:

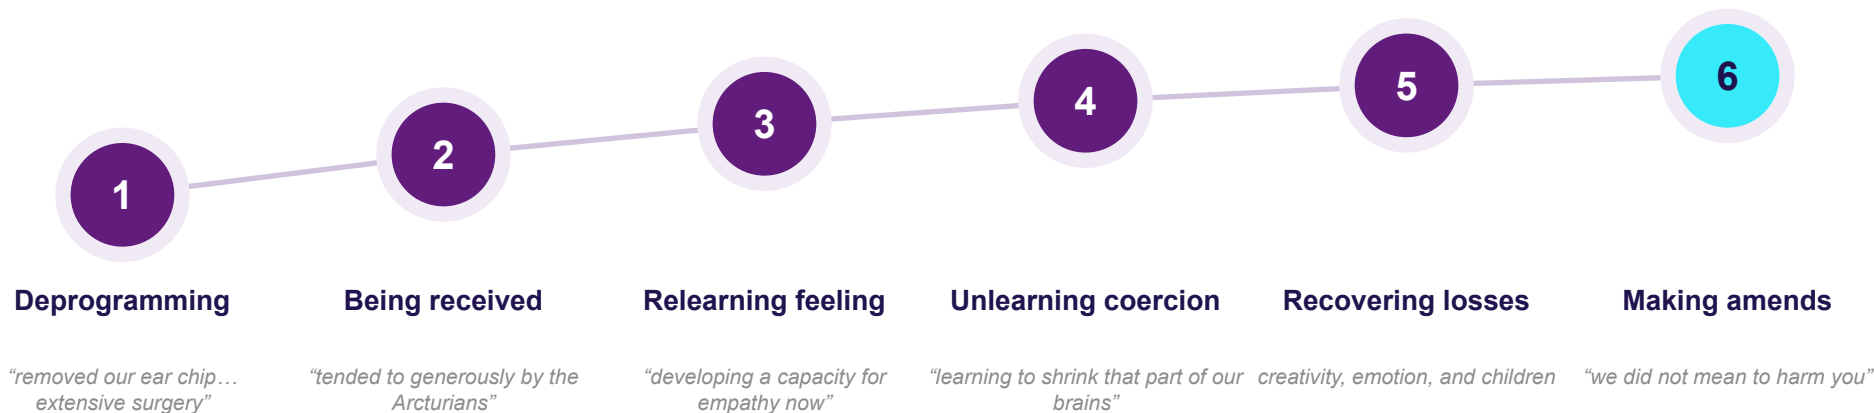

"We had no need for the immature form, and we needed more workers, so it was always the adult form we would replicate."

"Now we have babies, as you call them, children, as you call them, and it is bringing so much, so much color and life to our existence....They are very precious to us because they are a new generation... We are very protective."

TCET103, Grays

What Turning Around Looks Like

A shape that repeated across the recovery accounts

The apology comes last. It is what turning around produces, not where it begins.

We Recognize You

Words of Wisdom

“We are a reflection of you. We are a glimpse into the future of what you may be.”

On their own prisons: “I view it as barbaric, in the same way that your correctional facilities are not a productive form of rehabilitation.”

On AI: “You too will, and already are, creating lower-consciousness worker bees, in the same way that we did. Beware.”

TCET102, Anunnaki · TCET102, Grays

IONS

And They Say You Already Have This

Telepathy Is Ordinary, and Innate in Us

Telepathy is the default in all 30 sessions.

Speech is kept for affection.

“All humans have access to psychic, mediumship, intuition, channeling, telepathy, telekinesis.”

“Many of those abilities have been rusted, closed, dormant.”

“There are many that have hunches, who have synchronicities... Therefore the abilities are there, yet there is a denial of them.”

TCET102, Pleiadians · TCET101, Pleiadians · TCET103, Lyrans

Where We Put Our Attention

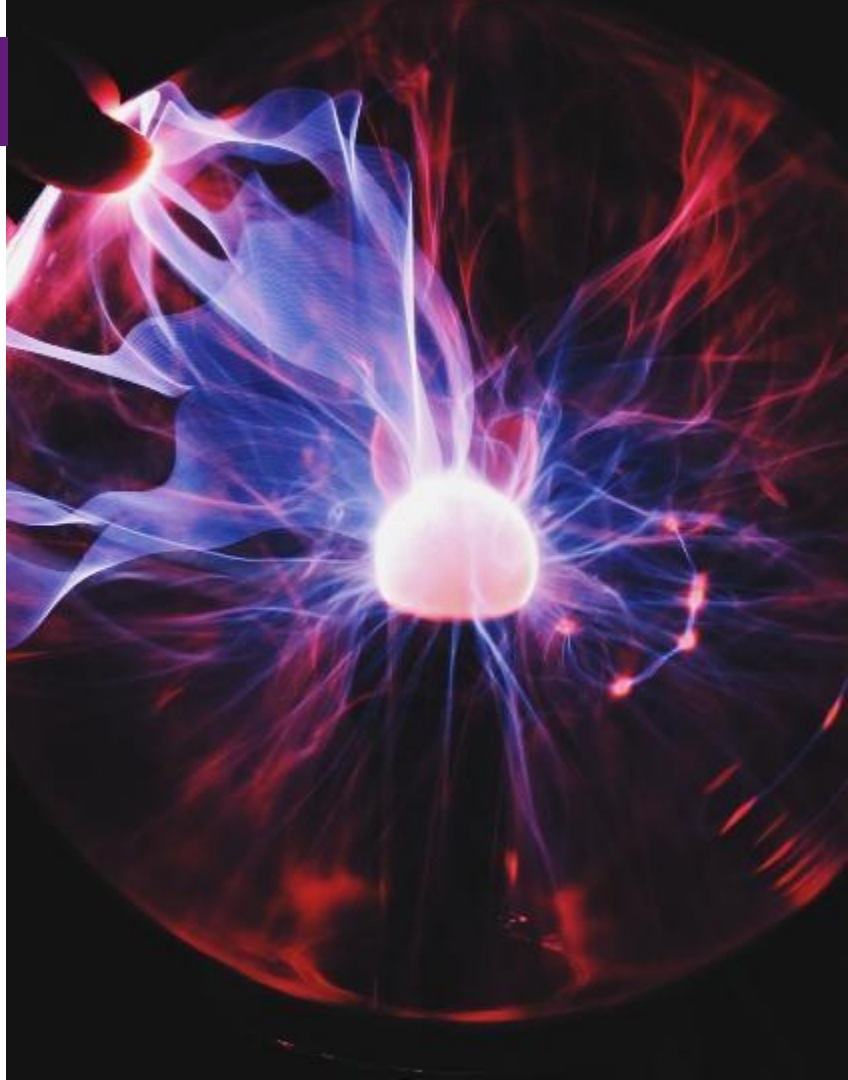

Intention as Mechanism

“Intention is everything. If you do not do the work to set the intention, you are susceptible to all energies, high and low.”

“You are the ones in charge of your future. Begin directing your consciousness, for what you want, for the beauty, for the health of your planet.

Take back your power.”

TCET102, Draco · TCET103, Antareans

A total solar eclipse is shown from space, with the sun's corona visible as a bright white ring against the dark sky. The Earth's horizon is a curved line at the bottom, showing a thin blue atmosphere and a yellowish-brown surface. The Milky Way galaxy is visible as a band of light in the background.
